- Weatherproof ✔

## Overview

All Crisis Emergency Voice Communication Systems (EVCS) are designed to comply fully with the requirements of BS5839-9:2021 for use as a disabled refuge system (DRS) with integrated Emergency Assist Alarm System.

The Crisis Assist Call Weatherproof Mushroom Call Button is used to activate a pool alarm and is reset by a key. The mushroom call button must not be used with a cancel plate. The mushroom call button has an IP56 rating and is supplied with a yellow and grey polycarbonate enclosure. For simplicity all wiring is a standard two core cable, the wiring order of the button is not fixed and therefore can be wired in any order to give total flexibility in the installation routes.

## Tech Specs

<b>Standards</b>	Compliant with: BS 5839-9:2021 BS 8300-2:2018 EMC: EN 55035:2017+A11:2020 and EN 55032:2015+A1:2020 LVD: EN IEC62368-1:2020+A11:2020
